

# SEED

School Emotional Education: The right practical way for teachers to teach emotional education in primary schools

1-2023-ES01-KA220-SCH-000153546

## The “SEED” Project Multiplier Events

The SEED project is based on the concept of promoting the use of **Emotional Intelligence and Emotional Education** in primary schools across Europe. Through collaborative research, innovative teaching tools, and teacher training, SEED empowers educators to nurture emotionally aware, resilient, and empathetic learners.

### Final Multiplier Events across Partner Countries

As SEED is reaching its final stage, each partner country organized a **Multiplier Event** to share the project’s outcomes with teachers, school leaders, policymakers, and community stakeholders. These events showcased:

- Evidence-based **Emotional Education methodologies**
- Innovative **classroom tools** developed within SEED
- **Training resources** for teachers
- Results from pilot implementations in primary schools

### Multiplier Events organized in each partner country

To promote the project and its objectives, members of the target groups and other members of the general public were invited in the multiplier events, in order to disseminate the project to local communities. Multiplier activities were planned in the partner nations as follows:

- P1 – DESES 3 Association - Spain (31.10.2025)
- P2 – Leyla Atakan İlkokulu - Türkiye (23.11.2025)
- P3 –E-School– Greece (30.10.2025)
- P4 - Prof. Ivan Apostolov Private English Language School – Bulgaria (23.10.2025, and 17.10.2025)
- P5 - Vilaka Secondary school – Latvia (24.10.2025)
- P6 - Indepcie SCA – Spain P7 - Šiaulių r. Dubysos aukštupio mokykla – Lithuania

### Impact and Engagement

The events brought together hundreds of participants, creating inspiring spaces for dialogue, collaboration, and professional growth. Attendees explored how emotional skills—empathy, self-regulation, communication, and emotional awareness—can transform school culture and improve student well-being.

### Building a Future of Emotionally Strong Learners

The final multiplier events marked a celebratory moment for SEED partners, reinforcing a shared commitment to making Emotional Education a core part of primary education across Europe. The knowledge and materials developed through SEED will continue to support teachers and students long after the project’s completion.

### Further Dissemination

The SEED project has also been shared on key European Erasmus+ platforms (e.g. EPAL), allowing the entire European community of educational organizations, educators, and Emotional Education specialists to benefit from the project's good practices.
