## IN VINO EXPERTISE

### ERASMUS+ PROGRAMME – KA2 ADULT EDUCATION

#### *3<sup>rd</sup> Transnational Meeting in Amarante, Portugal*

The 3rd Transnational Meeting of the In Vino Expertise project was hosted on 11th and 12th November, in Amarante, Portugal. The six partner organizations Medina del Campo City Council (project coordinator) and Asociación DESES-3 from Spain, Forcoop Cora Venezia from Italy, AEA- Associação Empresarial de Amarante from Portugal, Iter Vitis from France and Axion Academy from Slovenia, gathered in order to present the results of the latest work, considering the development of the modules of the international Wine tourism training course.

After detecting gaps and needs in the training of unemployed adults and companies working on the tourism and wine sector, the partners were able to agree on the major topics of the course and started working on the syllabus, now presented to the group.

The next steps will be first a peer review that will bring to the final version provided in December. From January until June 2022 all the partners will then give a pilot in their own countries, where 20 participants will have the chance to participate in an innovative training course, giving in return their critical point of view.

Furthermore, it was also designed by Ayuntamiento de Medina del Campo, together with Asociación Deses-3, the first version of the platform/network where unemployed adults and companies doing wine tourism can meet, establish contact and, hopefully, a work relation, through the usage of a shared job announcement.

As the host of the 3rd transnational meeting, Amarante also provided some wine tourism experiences to the participants fulfilling the objective of disseminating each country's good practices of economic agents in the sector. Project partners' representatives enjoyed the "Winemaker for a day" experience at Monverde Wine Experience Hotel in Telões. The participants were invited to

create a personal blend of wine, starting from the basis used for the wines produced in that particular area.

After the next upcoming months of hard work on the project results' piloting, project staff members will finally meet in France for a training week in June, hosted by Iter Vitis France.
