## Jobs Roadmap

Welcome to the inaugural newsletter of the **Jobs Roadmap project**! In this first issue we will share with you all the essential informations for you to get familiar with our idea, goals, mission and vision. From the sections below you will learn about specific social groups we are dedicating our efforts to, what and how do we want to achieve, and of course, why we embarked on this journey. Lets dive in!

### Our mission

Unemployment of young people in Europe still remains a major issue. With unemployment rates at 15% as of 2022, this age group's (15-24 years) difficulties with finding a job prove to be one of the most crucial issues in modern job landscape, that needs to be addressed. But what has to be done in order to help the youth? We believe, that the right answer to this situation is equipping participants of the project with valuable and relevant set of skills and competences, which in turn will provide benefits such as: lowering the youth unemployment rate and risk, guiding them towards successful careers and business paths as well as enabling the passage of this knowledge to the wider public.

### Our consortium

### Target groups

The world of tomorrow will be shaped by the youth of today. This motto is what drives our efforts to make a difference, by focusing on a specific group of young people, that can directly benefit from undertaken activities. Therefore, main aims of the project will be devoted to the youth workers, trainers, coaches, especially those working in disadvantaged communities. Thanks to that we ensure that knowledge gained by our participants and skills aquired by them, will be then shared among even wider group of young people. Furthermore, all of the staff of partner organisations will gain access to the educational materials developed throughout the project's duration.

## WHAT'S INSIDE?

**Work Package 1** focuses on overall coordination, management planning, and quality control. This part of the project involves such activities as: managing the project's online presence, designing logo, contributing to the Digital Practices Plan, overseeing promotion and creating a Green Guide for sustainable practices.

**Work Package 2** aims at developing an online platform, which will serve as the database of our knowledge and digital educational environment. The ther tasks are related to the process of profiling the participants.

**Work Package 3** is the section devoted to the development of the course's curriculum, the content of the course. Training of the trainers and final multipliers events will also be contacted at this stage of the project.

*Meeting in Valladolid on 15th December*

# OUR TASKS

**December 2023**

**START OF THE PROJECT!**

**15th December 2023**

Kick-off meeting in Spain

**January 2023**

Collecting data through networked news aggregation systems

**January 2023**

Actualization of Quality Management Plan and quality controls

**...and much more to come!**

Stay tuned!

*Partnership consortium in Valladolid*

## Current and upcoming activities

Even though our project is just getting started, we are working hard from the very beginning, to ensure the highest possible quality of our outcomes and timely execution of each and every task. Currently we are focusing on preparing our development schedule and general coordination of the project activities. One of the recent achievements is successful TPM in Spain, where all the project partners met in person to discuss all of the most important issues, and therefore lay solid foundations for the further smooth and uninterrupted development of the project. Stay tuned for more informations and revelations on our social media channels!
